## **M N ROY (Manabendra Nath Roy)**

M.N. Roy (1887-1954), the well known thinker and revolutionary, was also a prolific writer. In the course of his uniquely rich and varied life he came in close contact with innumerable leading personalities of the world. He wrote his memoirs on some of them, his own impressions about their lives and works based on his personal contacts with them. Years have passed since they were written, yet they retain a remarkable freshness. We are serializing some of these here in the hope that they will prove to be of great interest to readers in India and abroad.

M.N. Roy's write-up on Leon Trotsky

The first in the series is the sketch of LEON TROTSKY, written by Roy shortly after the latter's death in 1940. Trotsky had played a historical role in the Russian Revolution. This write up throws light on both the plus and minus aspects of his personality. Besides Trotsky, this outline also brings out very interesting aspects of the personalities of Lenin and Stalin.

M.N. Roy's Writing on Georgi Dimitrov

M.N. Roy's letters to Dr. Reddy. These 3 letters were written by M.N. Roy (in his own hand and typewritten) to Dr. Reddy, former Vice Chancellor of Andhra University.

Excerpt: Alfred Rosmer (1877 - 1964) was a syndicalist leader before World War I and one of the few leaders of that movement to oppose the war from a revolutionary internationalist position. A friendship with Leon Trotsky dated from that period, when the latter was living in Paris. After the war he became a leading figure in the Communist Party of France before being ousted as early as 1924, along with Boris Souvarine and Pierre Monatte, for opposing Stalinism and the elimination of the Old Bolsheviks, as that party underwent so called "Lionization". He then became a leader of the early Trotskyist movement only to drop out of politics in 1932. Nevertheless he remained a convinced revolutionary and his friendship with Trotsky was later repaired. The founding congress of the Trotskyist Fourth International was held at his home outside Paris. Rosmer was a member of the Dewey Commission which cleared Trotsky of all charges made during the Moscow Trials.
